

Reach the right students, before they've made up their mind.

Vula is a free, WhatsApp-native career-guidance tool for South African Grade 10–12 learners. In under five minutes a learner answers 30 tappable questions and gets a personalised career profile, a downloadable report, and – where it genuinely fits – your courses shown as the match for their interests and province.

THE PROBLEM YOU ALREADY KNOW

Most South African schools have one career counsellor for hundreds of learners, if any at all. Learners lock in Grade 9 and 10 subject choices with almost no real information about what those choices open or close off.

By the time your recruitment team reaches them in Grade 12, many have already ruled themselves out of your programmes without ever knowing it.

60.9%

of South Africans aged 15–24 are unemployed. Subject choices made at fifteen are one of the earliest points at which that outcome is shaped.

Stats SA, Quarterly Labour Force Survey, Q1 2026

HOW IT WORKS FOR YOU

- 1 A learner completes their profile on WhatsApp** – no app, no login, no data bundle to speak of. It works on any phone.
- 2 Their interest profile and province are matched against your programme.** Where you fit, your course appears inside their results at the moment they're exploring that career.
- 3 You reach students by genuine interest and geography** – not by buying a list and hoping it lands.

WHAT YOU GET

Targeted placement. Shown only to learners whose profile and province actually match what you offer.

Brand presence at the decision point. Your name and course details in front of a learner while they are still choosing, not after.

Simple reporting. Impression counts per course, so you can see reach without ever touching learner-level data.

No new data liability. Vula never hands you a learner's personal information.

Why this is lower-risk than buying data

Vula's model is sponsorship, not lead sales – deliberately. You get visibility with the right audience without becoming a second custodian of minors' personal information. That is a POPIA exposure most institutions would rather not take on, and Vula's structure means you never have to.

Vula is free to every learner, permanently – no app, no data cost, no fee. Sponsorship is what pays for that. Funding career guidance for learners whose schools cannot provide it, and reaching the ones whose interests genuinely fit your programmes, are the same act. That is the point of the model.

The audience, by province

2.9m

learners are in Grades 10-12 across South Africa – the window in which subject choices harden into career options. They sit across 8,949 secondary and combined schools.

Department of Basic Education, School Realities 2023

PROVINCE	GR 10-12 LEARNERS	SHARE OF NATIONAL	SCHOOLS
KwaZulu-Natal	690,057	23.8%	2,108
Gauteng	538,883	18.6%	1,465
Limpopo	398,932	13.7%	1,406
Eastern Cape	383,404	13.2%	1,589
Mpumalanga	262,840	9.1%	713
Western Cape	240,134	8.3%	607
North West	176,927	6.1%	522
Free State	156,362	5.4%	382
Northern Cape	55,212	1.9%	157
South Africa	2,902,751		8,949

Learner figures: Department of Basic Education, **School Realities 2023** (published December 2023), Table 4 – learners in ordinary public and independent schools, Grades 10-12; the most recent national dataset. Provincial figures sum exactly to the published national total of 2,902,751.

School counts: Vula schools database, EMIS-derived.

TWO THINGS WORTH KNOWING ABOUT THIS AUDIENCE

It thins quickly. There are 1,187,468 learners in Grade 10 but only 740,566 in Grade 12 – 38% fewer. The learners a sponsor most wants to reach are the ones still deciding, and they are most numerous at the start of the phase.

It concentrates. KwaZulu-Natal, Gauteng and Limpopo together hold 56% of the national total. A provincial package in one of those three reaches a materially larger pool than the other six.

These are enrolment figures, not Vula's audience.

They describe how large the addressable market is in each province. Vula is pre-launch and its own reach today is a waitlist. Sponsor reporting shows impressions actually delivered to real learners – never market size.

Packages & pricing

VULA – SPONSOR PACK
3 – THE OFFER

BILLED ANNUALLY – PAY FOR TEN MONTHS, GET TWELVE

PACKAGE	SHARED SLOT	SOLO – YOU OWN IT
Provincial Learners in one province	R65,000 PER YEAR · R6,500/MO	R180,000 PER YEAR · R18,000/MO
National Learners in all nine provinces	R250,000 PER YEAR · R25,000/MO	R700,000 PER YEAR · R70,000/MO

Shared

Your courses are matched to learners by interest profile. Where another sponsor also matches that learner, the closer match is shown. Annual shared sponsors agree an impression floor upfront – if we fall short, your term extends free of charge until we meet it.

Solo

No other sponsor is shown to any learner in your province, or nationwide, for the whole term. You hold the slot outright.

FOUNDING SPONSOR FIRST 5-10 ONLY

Any package above at a discount, plus logo placement on the Vula marketing site and first right of refusal on a joint case study.

50% off
YEAR ONE

Excl. VAT, payable annually in advance. Monthly rates shown for comparison only.

WHAT IT WOULD TAKE TO PAY FOR ITSELF

Break-even is simply your own cost per acquired student – a number you know and we don't. Here is what each package would need to return over a year to cost you nothing.

PACKAGE	IF A STUDENT COSTS YOU R3,000	R7,500	R15,000
Provincial – shared R65,000/yr	22	9	5
Provincial – solo R180,000/yr	60	24	12
National – shared R250,000/yr	84	34	17
National – solo R700,000/yr	234	94	47

Enrolments needed = annual fee ÷ your cost per acquired student, rounded up. Vula makes no forecast of how many enrolments a sponsorship will produce – this sets the bar your own economics imply, nothing more. Shared placements are matched algorithmically and impression volume is not guaranteed; see clause 3.3 of the agreement.

HOW TO GET STARTED

- 1 A 15-minute call or live demo** of the WhatsApp flow, end to end.
- 2 Pick a package** – provincial or national, shared or solo.
- 3 Sign the sponsorship agreement** – a short, standard template.
- 4 Go live** once your courses are loaded and your term begins.
